ReSPARK

— SPARKY 2.0

Your yard's new best friend.

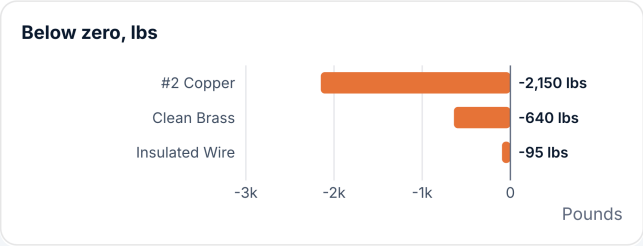
Sparky 2.0 is the AI assistant built into ReSpark. Ask about your yard and get a chart or a straight answer. Tell it what needs doing and it drafts the work for you to approve.

SEE SPARKY IN ACTION

Sparky answers

Ask the way you'd ask a coworker. Get a chart, a table or a straight number back.

"Where do I have negative inventory?"



Custom reporting

Describe the report you want. Sparky builds it, and you click Approve.

"Build me a weekly copper purchases report by supplier"

DRAFT · NEW REPORT — Waiting for you

Card	Shows
Copper bought by supplier	Bar chart, this week
Week over week	Table, with % change
Total pounds and spend	Number cards
Filters	Yard, date range, copper grade

Approve | Change something

WHAT SPARKY 2.0 DOES

Builds reports

Describe the report you want and Sparky builds it. Ask it to explain any card, or change it with a follow-up.

Handles paperwork

Drafts purchase and sales orders, updates ticket status and adds notes, ready for you to approve.

Fixes inventory

Finds negative inventory, suggests what to pull from and enters regrades straight from a production report.

Reads price sheets

Pulls prices out of a vendor's price sheet, flags anything unusual and checks your margin on a sale.

Knows your customers

Spots who's gone quiet, writes the win-back text and shows which accounts are growing fastest.

Cleans up data

Finds duplicate customers, exports any answer to a spreadsheet and takes you straight to the right screen.

YOU STAY IN CHARGE

You approve every change.
Nothing saves until you click Approve.

It follows your permissions.
Sparky can only see and do what you can.

One yard or all of them.
It works across every yard you can access.
