ReSPARK

Supply Radar.

Your next supplier is already on the map. Supply Radar finds the scrap generators around your yard, tells your buyers who to call first, and tracks every conversation until they're selling you material.

FIND GENERATORS LIKE

- Fab shops
- Machine shops
- Contractors
- Manufacturers
- Auto repair
- HVAC
- Demo crews

WHY IT MATTERS

Most yards grow supply the hard way: cold calls, driving industrial parks, waiting on referrals. Prospects live in notebooks and spreadsheets. Two buyers call the same shop in the same week. Nobody knows which follow-ups slipped or why a deal was lost.

TWO WAYS TO RUN IT

Standalone
Use Supply Radar with whatever yard system you have today.

With ReSpark
Won prospects become suppliers in ReSpark, ready to buy from.

SALES@RESPARK.COM

Everything you need to win new suppliers

Find
Set a radius around your yard and see every likely scrap generator on one map.

Prioritize
A supply relevance score from 0 to 100 and likely scrap types for every business.

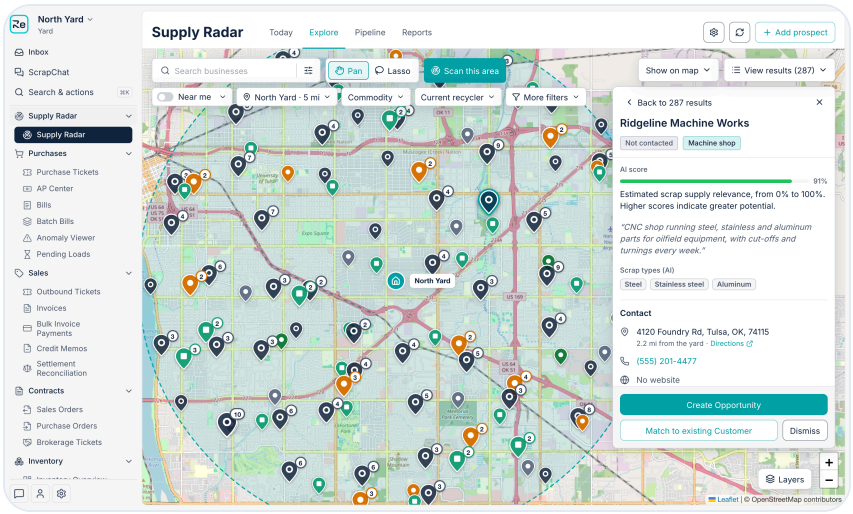

Plan the day
See what's due, late or going stale, and plan your route past unvisited prospects.

Work it
Check in on site, log every call and visit, and track tons per month by location.

Win
Turn a yes into a supplier in ReSpark, with duplicates checked first.

Built for scrap
Your commodity list, competing recyclers and do-not-pursue rules for partner yards.

See it in action

SCORED GENERATORS AROUND YOUR YARD

What managers get

- ✓ Open pipeline by stage, owner and material, with potential tons per month
- ✓ Overdue, due today and unassigned follow-ups by buyer
- ✓ Outreach activity by buyer and commodity
- ✓ Won and lost with the reason, who won the business, and how their price compared
- ✓ A playbook note and time limit for each stage, with going stale alerts
- ✓ Export any report
